

# Vibra tone™

## Vibrate your fat away in just a few minutes a day!

Introducing the revolutionary new Vibra tone™. Just place it around your problem area and it will literally vibrate your fat away. Vibrating muscular technology actively burns fat cells away by rapidly contracting the core of your muscle, increasing heart rate and calorie burn off. The Vibra tone™ uses a unique oscillating massage action to slim down specific body parts — waist and abs, hips, buns, thighs, arms, and other problem areas. It's the smart and easy way to get the body you want without effort and in the comfort of your own home.

### Oscillating Vibro Technology

### Eliminates Unwanted Fat
